

Name: _____ Andrew Id: _____

15-112 Spring 2020 Quiz 1

Up to 15 minutes. No calculators, no notes, no books, no computers. Show your work!

1. (6 points) **Spot the Violation:** Check the box next to each item below that *is* an academic integrity violation in this course. If an item is not a violation, then leave the box unchecked. Assume that both Ahmed and Roudha are students in the course.
 - Ahmed hires a private tutor who helps him study by solving old quizzes and exams with him.
 - Ahmed hires a private tutor who helps him study by giving him some new programming exercises to solve and then walking him through solving them.
 - Ahmed hires a private tutor who helps him with homework 1 by providing him with a solution to the assignment.
 - Ahmed hires a private tutor who helps him with homework 1 by discussing the high-level concepts with him, but does not provide him with a solution or look at his code.
 - Roudha's friend (who isn't a CMU student) helps her study by solving old quizzes and exams with her.
 - While solving the homework, Ahmed has a strange error message and reads it to Roudha. She mentions how she solved a similar error.
 - Roudha's friend (who isn't a CMU student) helps her with homework 1 by discussing the high-level concepts with her, but does not provide her with a solution or look at her code.
 - Roudha's friend (who is also a student in 15-112 this semester) helps her with homework 1 by discussing the high-level concepts with her, but does not provide her with a solution or look at her code.
 - Roudha tells Ahmed about some ideas for good testcases to test his solution to homework 2.
 - While solving the homework, Ahmed has a strange error message and Roudha takes a look at the error for him and then shows him that one line of his code is not indented properly.
 - Ahmed finds some code on the internet that helps him solve the homework and uses copy/paste to insert it into his code.
 - Ahmed finds some code on the internet that helps him solve the homework and types it into his code by hand without using copy/paste.

2. (2 points) **True/False:** Answer the following questions by writing T for true or F for false.
 - (a) ___ If you have taken the course before, you are not allowed to submit code you wrote and submitted last time you took the course.
 - (b) ___ If you have taken the course before, you are not allowed to even reference code you wrote and submitted last time you took the course.
 - (c) ___ If you ask your uncle for help with the course, but do not pay him money, then he is not considered an outside tutor.
 - (d) ___ If you hire (and pay) your really smart friend, who is also taking the course, to help you study for the exams, then your friend is considered an outside tutor.

3. Regret Policy
 - (a) (1 point) If you commit an academic integrity violation and then regret it, how many hours do you have to self-report it to the instructors?

 - (b) (1 point) What happens when you self-report?
