

Name: _____ Andrew Id: _____

15-121 Fall 2019 Quiz 1

Up to 15 minutes. No calculators, no notes, no books, no computers. Show your work!

1. (2 points) **Multiple Choice:** Which of the following best describes the dropped quiz policy?
 - Some complicated thing involving replacing a bad quiz if the following quizzes are better.
 - Some complicated thing involving replacing the lowest score with the median score.
 - A simple thing where the lowest quiz is dropped.
 - No quizzes will be dropped.
 - The last student standing in a Hunger Games style arena match has their lowest three quizzes dropped.

2. (5 points) **True/False:** Answer the following questions by writing T for true or F for false.
 - (a) ___ This course has no textbook.
 - (b) ___ You have three late days to use on homework and you can use at most one on a single assignment.
 - (c) ___ Regrade requests for any assignment may be submitted anytime before the final exam.
 - (d) ___ A student can ask to have a homework submission deleted within 24 hours of the submission deadline, no questions asked.

3. (13 points) **Academic Integrity:** Check the box next to each item below that *is* an academic integrity violation in this course. If an item is not a violation, then leave the box unchecked. Assume that both Ahmed and Roudha are students in the course.
 - Ahmed hires a private tutor who helps him study by solving old quizzes and exams with him.
 - Ahmed hires a private tutor who helps him study by giving him some new programming exercises to solve and then walking him through solving them.
 - Ahmed hires a private tutor who helps him with homework 1 by providing him with a solution to the assignment.
 - Ahmed hires a private tutor who helps him with homework 1 by explaining how to solve it, but does not provide him with a solution.
 - Roudha's friend (who is not paid) helps her study by solving old quizzes and exams with her.
 - Roudha's friend (who is not paid) helps her study by giving her some new programming exercises to solve and then walking her through solving them.
 - Roudha's friend (who is not paid) helps her with homework 1 by providing her with a solution to the assignment.
 - Roudha's friend (who is not paid) helps her with homework 1 by explaining how to solve it, but does not provide her with a solution.
 - Roudha and Ahmed discuss homework 1 together, brainstorming some high-level ideas about how to solve it.
 - Roudha tells Ahmed about some ideas for good testcases to test his solution to homework 1.
 - Ahmed has a strange error message in Eclipse, and Roudha takes a look at the error for him and then shows him that one line of his code is missing a semi-colon.
 - Ahmed finds some code on the internet that helps him solve the homework and uses copy/paste to insert it into his code.
 - Ahmed finds some code on the internet that helps him solve the homework and types it into his code by hand without using copy/paste.
